Häring AG Sisslerstrasse 15 CH-5074 Eiken t +41 (0)61 826 86 86 **HARING.CH**

This double kindergarten, which opened in August 2014, is in a very central location, right behind the Zegli school building. Our modular timber construction and a wooden cladding façade made from varnished silver fir created a generous configuration of rooms. The interior walls are cladded with white, varnished OSB panels. The end result is an environmentally friendly building where everyone feels at home and can express themselves. Galleries situated under the two large skylights provide special zones for the children to retreat to and relax.

Services
General contractor
Prefabricated timber construction
Façade cladding
Interior fitting
