

Hütte Mühleholzli

Services:

- Façade cladding

The "Scouting against the odds" organisation ("Pfadi trotz allem" – PTA) was founded to offer disabled children and young people a chance to experience nature, play and companionship. AMZ Architekten designed this hut to be straightforward, functional and robust, as reflected in its exterior cladding of pre-greayed spruce formwork. The natural-effect, multilayer wooden boards inside contrast well with the bright yellow plastic flooring. Generous window fronts allow plenty of daylight to flood in. These are covered by large sliding doors when the building is not in use. Häring supplied the entire shell of the building.

Client

Hütte Mühleholzli foundation
 Industriestrasse 9
 8712 Stäfa
 Switzerland

Architect

AMZ Architekten AG
 Seestrasse 412
 8038 Zurich
 Switzerland

Area:

164 m²

Completion date:

30.09.2015

Duration:

4 months

Construction cost:

CHF 0.25 million

Project manager:

Marc Mürger
